

# Want to learn how to better leverage your ideas?

## Presentation Plus

Powerfully present yourself and your business

### Workshop Content

#### Smart preparation:

What you do beforehand helps you give the best presentation performance.

#### Strategy for putting it together:

This is about organising your content in the most memorable way – using the heart as well as the head – to make your story really powerful.

#### Making the room work:

The key to your influence is your actual conduct. This is about improving how you respond to the situation and come across to others.

#### Performance tips – Showmanship:

When you make a magical impact people are left with a real sense of you. This is about building on strengths and even enjoying the experience.

#### Getting on top of nervousness:

The key is how to harness your energy to come across more confidently.

#### “What do I do with my hands?”

This is such a common question. But, awareness of the little things makes a big difference. So we'll spend time on what to do about your hands, your feet – and more.

#### Talking like a leader:

This is about how to get your ideas across with conviction and passion. The performance of leadership – rising to the occasion – conveys a powerful sense of who you are.

#### Individual Coaching:

People come to **Presentation Plus** to change – to improve confidence and capability. A proven way to support new habits is follow-up individual coaching. Peter is offering the workshop PLUS four hours follow up coaching – at much reduced cost – to prepare for specific presentations, important meetings and leadership situations. The focus of the coaching is up to you! Work in depth at your pace on your leadership development.

#### The Power of You

YOU are the key to powerfully presenting and representing your organisation. **Presentation Plus** is structured around four qualities of being: Being Confident, Being Memorable, Being Prepared and Being a Leader.

You will be taught skills and given practical feedback on how you come across as a leader in public situations and presentations – when stakes are always high. **Presentation Plus** is guaranteed to help you leverage ideas better and transform people around you for improved business outcomes.

#### Leadership Development

##### Target audience:

Leaders at all levels who want to communicate with more confidence and get their ideas across.

##### Opportunity:

Practise and improve public leadership skills with follow-on individualised coaching support.

#### Benefit:

Increased confidence and capability to leverage ideas and influence.

**Be confident.  
Be memorable.  
Be a leader.**

### What others say...

“The training is dynamic and expects people to participate with their hearts and minds.”

“The content was great, relevant on so many levels, demonstrating again and again how powerful it is when people access that personal level of engagement. Great.”

“A big strength is Peter's preparedness to go to hard places with people.”

“Absolutely fantastic insights. Very important for any aspiring presenters!”
